Chartered in 1937, Local Union 160 represents people working in a broad range of industries, from nursing to freight, from dairy employees to those manufacturing parts for NASA's space program and those building America in the ready-mix industry.

Our jurisdiction extends from the Wisconsin and Iowa borders on the east and south to Minnesota Highway 13 on the west and Highway 50 on the north.

Members of Local 160 receive strong representation from our officers and staff in negotiating contracts, pursuing grievances, ensuring due process and fighting for workplace safety. In the Teamster tradition, Local 160 fights for fair wages, good benefits and decent working conditions for all members.
